You can install FlexTLS with pip:

```
$ pip install flextls
```

See [Introduction](#) for more information.

Contents:

1.1 Introduction

1.1.1 Installation

As a Python egg

You can install the most recent FlexTLS version using pip

```
$ pip install flextls
```

From a tarball release

Download the most recent tarball from github, unpack it and run the following command on the command-line.

```
$ python setup.py install
```

Install the development version

Install git and run the following commands on the command-line.

```
$ git clone https://github.com/DinoTools/python-flextls.git
$ cd python-flextls
$ python setup.py install
```
